REZONING OF ERF 1750, WINDHOEK

Du Toit Town Planning Consultants, are applying on behalf of the owner of the erf, Lex Officio Properties One CC and Lex Officio Properties Two CC (Mr. F Vincent du Toit) to the City of Windhoek and the Urban and Regional Planning Board for the:

- **Rezoning of Erf 1750, c/o Robert Mugabe Avenue and Thorer Street, Windhoek from ‘office’ with a bulk of 0.4 to ‘office’ with a bulk of 1.0;**
- **Consent in terms of section 23(1) of the zoning scheme and council’s policy to allow for additional floor area (to be excluded from the bulk calculations) not exceeding the bulk of the erf which will be devoted solely to residential use;**
- **Consent in terms of Table B of the current Windhoek Zoning Scheme and Clause 11(1) for a floor area of $\pm 584\text{m}^2$ of the office bulk for commercial uses such as a showroom, pharmacy, travel agency and bank agency.**

Erf 1750 is located at the corner of Robert Mugabe Avenue and Thorer Street, in Windhoek. The surrounding area is characterised by a gradual transition from residential use to offices, institutional uses, embassies, and limited commercial activity. The erf is currently zoned “office” with an approved bulk factor, and is approximately $2,492\text{m}^2$ in extent. The property is presently developed with office buildings, ancillary outbuildings, and covered parking, which are being used for office purposes.

The owner intends to demolish all existing structures and redevelop the property into a mixed-use development comprising offices, residential apartments, and limited commercial floor space. The proposed development requires an increase in bulk to 1.0 in order to allow for efficient redevelopment of the site in line with its size, location, and surrounding urban development trends.

The motivation for the application is based on the location of the erf within a recognised redevelopment and intensification area in the Draft Windhoek Urban Structure Plan, the established trend of higher bulk and mixed-use developments in the surrounding precinct, the need to promote urban densification, housing close to employment opportunities, and mixed-use development within the CBD South / Feld Street precinct, as well as consistency with previously approved developments on nearby erven with similar or higher bulk allocations.

The development will include approximately 12 apartments (a mix of one-, two- and three-bedroom apartments), office space, and limited commercial uses such as a pharmacy, showroom, and bank agency. Provision is also made for possible short-term residential accommodation subject to approval.

Vehicular access to the site is proposed from Thorer Street only, which has a low traffic volume and connects to Robert Mugabe Avenue and Jan Jonker Road. A Traffic Impact Assessment is currently being undertaken and will inform the final access and circulation arrangements.

Parking is proposed to be provided in a basement level and on-site parking areas. The current proposal indicates approximately 62 basement parking bays, additional on-site bays, and limited surface parking. Bicycle and taxi parking facilities are also proposed to encourage alternative transport modes. Final parking provision will be confirmed during the building plan approval stage, in accordance with municipal requirements and the outcome of the Traffic Impact Assessment.
